

Rebecca is fighting breast cancer with juniper berries

by killing cancer cells with berry extract

Sathya is engineering a solution for spinal cord injuries

by using entubulation to repair damaged spinal cords in rats

Linda is attacking Alzheimer's with rhubarb

by using the plant's chemistry to protect proteins in cells

Enter the Sanofi-Aventis BioTalent Challenge

Investigate what you're passionate about. Collaborate with real scientists in real labs. Design and do research that has practical, meaningful applications—and earns you the chance to win cash prizes. The Sanofi-Aventis BioTalent Challenge is a national biotechnology science competition open to all high school and CEGEP students in Canada.

Apply today at www.sanofibiotalentchallenge.ca.

National Supporters: sanofi-aventis • sanofi pasteur • BioTalent Canada • National Research Council Canada • Genome Canada
