# THE 5th NATIONAL BIOSCIENCE EDUCATORS CONFERENCE

Centennial College (Morningside Campus)
March 8th-9th, 2011 (8am - 3pm)

**THEME:**
**BRINGING BIOTECHNOLOGY TO THE CLASSROOM**

**REGISTRATION WILL BE OPEN: NOVEMBER 20th, 2010**

**COST $100**

For more information on the conference, visit **www.bioscienceeducation.ca**

Space for some activities is available on a first-come first-serve basis.

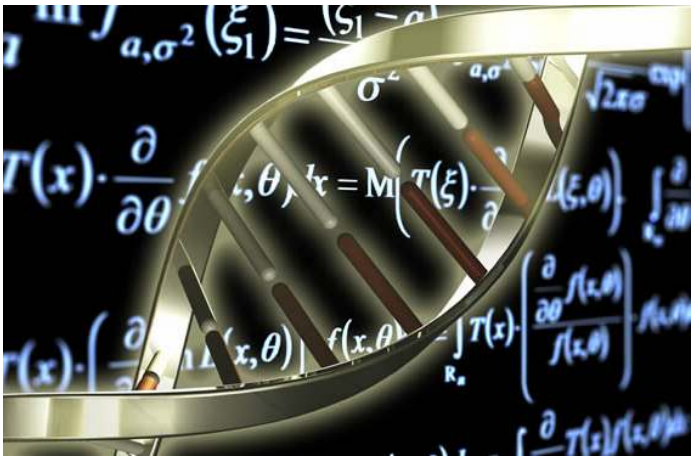

Image taken from: http://www.abdn.ac.uk/dsb/images/systems_biology_pic.jpg

Featured speakers are from the University of Toronto, the Ontario Biodiversity Institute, the University of Ontario Institute of Technology, Trent University, the University Health Network and the University of Waterloo.

Research Scientists, Industry Experts and Educators will bring the cutting edge of bioscience research to your classroom and give practical examples and resources for you to use. Topics include; epigenetics, synthetic biology, techniques in mouse genomics, DNA bar-coding, DNA profiling in wildlife management, forensic technologies, ELISA, microarray and bioinformatics labs. A featured speaker will be:

**MR. GLEN KIM**
**2010 WINNER OF THE ONTARIO GENOMICS INSTITUTE TEACHING AWARD**

For more information on this award and Mr. Kim's award winning work, visit www.ontariogenomics.ca
